Framerbacks

Framerback plasterboard clips eliminate the need for additional wood blocking at internal plasterboard corners and ceilings.

Framerback clips are installed in an easy, two step procedure which involves nailing or screwing them at 400mm centres on walls and 600mm centres on ceiling applications.

Code

CFB-300

Description

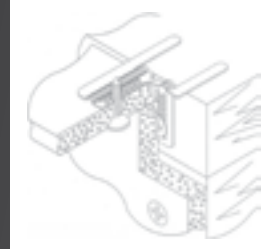

Clips Framerbacks 300pkt

Barcode

0026686040307.

Features:

- 22 gauge
- Electrogalvinised steel
