TAPEPRO
DRYWALL TOOLS®

Note: Please advise if you consider yourself to have any of the following conditions: any disability, impairment, learning or language difficulties, physical or other conditions that may impact on your participation in this course.

Enclosed steel capped shoes must be worn on the day.

Mobile phones to be placed on silent or vibrate.

• Schedule

8:00am-8:30am: **Safety induction presentation** (Bill Coughlan)

- Welcome, introduction & housekeeping
- Emergency exits, muster point, fire drills
- Safety discussion on tools
- Today's agenda

8:30am-11:00am: **Tapepro presentation – Taping and First Coat** (Tom Gill)

This session is designed for participants to become more familiar with the features and benefits of the Automatic Tool range while having "hands-on" involvement when taping and applying first coat

- Plastic Taping Tool
- Mud Box & Mud Box Pro
- Automatic Taper (Bazooka)
- Corner Rollers
- Corner Glazers
- Flat Boxes (including Recess Plate)

11:00am– 12:00pm: **Trim-Tex** (Bill Coughlan)

The Trim-Tex session will cover many of the time saving products available in the range as well as new varieties like the Mud Set series. Participants will also be invited to install some of the beads

- Introduction of new & existing beads to suit different applications
- Recommended installation of beads including alignment at intersections
- Use of Compound Applicator Tube for Mud Set bead installation

12:00-12:30pm: **Lunch**
